Conduent Services and Solutions Summary

Q2 2020
Cautionary Statements

Forward-Looking Statements
This document contains “forward-looking statements”, as defined in the Private Securities Litigation Reform Act of 1995, that involve risks and uncertainties. The words “anticipate,” “believe,” “estimate,” “expect,” “plan,” “intend,” “will,” “aim,” “should,” “could,” “may,” “continue to,” “if,” “growing,” “projected,” “potential,” “likely,” and similar expressions, as they relate to us, are intended to identify forward-looking statements, but the absence of these words does not mean that a statement is not forward-looking. All statements other than statements of historical fact included in this press release are forward-looking statements, including, but not limited to, statements regarding our financial results, condition and outlook; changes in our operating results; general market and economic conditions; the strength of our pipeline being greater than it has in a long time; our focus on near-term projects and expectations that such projects will result in improved client performance optimization, client retention programs, enhanced service level agreement monitoring, and contract standardization; our expectations that we will overachieve on our $100M cost transformation program for 2020 (which we also refer to as a cost reduction initiative); and our projected financial performance for Q3 2020 and the strength of our position for the remainder of the year. In addition, all statements regarding the anticipated effects of the novel coronavirus (“COVID-19”) pandemic and the responses thereto, including the pandemic’s impact on general economic and market conditions, as well as on our business, customers, and markets, results of operations and financial condition and anticipated actions to be taken by management to sustain our business during the economic uncertainty caused by the pandemic and related governmental and business actions, as well as other statements economic and market conditions, as well as on our business, customers, and markets, results of operations and financial condition and anticipated actions to be taken by management to sustain our business during the economic uncertainty caused by the pandemic and related governmental and business actions, as well as other statements that are not strictly historical in nature, are forward looking. These statements reflect management's current beliefs, assumptions and expectations and are subject to a number of factors that may cause actual results to differ materially. As with any projection or forecast, forward-looking statements are inherently susceptible to uncertainty and changes in circumstances. Our actual results may vary materially from those expressed or implied in our forward-looking statements. These forward-looking statements are also subject to the significant continuing impact of the COVID-19 pandemic on our business, operations, financial results and financial condition, which is dependent on developments which are highly uncertain and cannot be predicted.

Important factors and uncertainties that could cause our actual results to differ materially from those in our forward-looking statements include, but are not limited to: the impact of the ongoing COVID-19 pandemic; government appropriations and termination rights contained in our government contracts; risk and impact of potential goodwill and other asset impairments; our ability to renew commercial and government contracts, including contracts awarded through competitive bidding processes; our ability to recover capital and other investments in connection with our contracts; our ability to attract and retain necessary technical personnel and qualified subcontractors; our ability to deliver on our contractual obligations properly and on time; competitive pressures; our significant indebtedness; changes in interest in outsourced business process services; our ability to obtain adequate pricing for our services and to improve our cost structure; risk and impact of geographical events, natural disasters and other factors (such as pandemics, including COVID-19) in a particular country or region on our workforce, customers, vendors, partners and the global economy; claims of infringement of third-party intellectual property rights; the failure to comply with laws relating to individually identifiable information, and personal health information and laws relating to processing certain financial transactions, including payment card transactions and debit or credit card transactions; breaches of our information systems or security systems or any service interruptions; our ability to estimate the scope of work or the costs of performance in our contracts; our continuing emphasis on and shift toward technology-led digital transactions; customer decision-making cycles and lead time for customer commitments; our ability to collect our receivables, including those for unbilled services; a decline in revenues from, or a loss of, or a reduction in business from, or failure of significant clients; fluctuations in our non-recurring revenue; our failure to maintain a satisfactory credit rating; our ability to attract and retain key employees; increases in the cost of telephone and data services or significant interruptions in such services; our failure to develop new service offerings; our ability to modernize our information technology infrastructure and consolidate data centers; our ability to comply with data security standards; our ability to receive dividends or other payments from our subsidiaries; changes in tax and other laws and regulations; changes in government regulation and economic, strategic, political and social conditions; the outcome of litigation to which we are a party from time to time; changes in the volatility of our stock price and the risk of litigation following a decline in the price of our stock; and other factors that are set forth in the “Risk Factors” section, the “Legal Proceedings” section, the “Management's Discussion and Analysis of Financial Condition and Results of Operations” section and other sections in our Annual Reports on Form 10-K, as well as in our Quarterly Reports on Form 10-Q and Current Reports on Form 8-K filed with or furnished to the Securities and Exchange Commission. Any forward-looking statements made by us in this presentation speak only as of the date on which they are made. We are under no obligation to, and expressly disclaim any obligation to, update or alter our forward-looking statements, whether as a result of new information, subsequent events or otherwise.
Cautionary Statements

Non-GAAP Financial Measures
We have reported our financial results in accordance with U.S. generally accepted accounting principles (GAAP). In addition, we have discussed our financial results using non-GAAP measures. We believe these non-GAAP measures allow investors to better understand the trends in our business and to better understand and compare our results. Accordingly, we believe it is necessary to adjust several reported amounts, determined in accordance with GAAP, to exclude the effects of certain items as well as their related tax effects. Management believes that these non-GAAP financial measures provide an additional means of analyzing the results of the current period against the corresponding prior period. However, these non-GAAP financial measures should be viewed in addition to, and not as a substitute for, our reported results prepared in accordance with U.S. GAAP. Our non-GAAP financial measures are not meant to be considered in isolation or as a substitute for comparable U.S. GAAP measures and should be read only in conjunction with our Consolidated Financial Statements prepared in accordance with U.S. GAAP. Our management regularly uses our supplemental non-GAAP financial measures internally to understand, manage and evaluate our business and make operating decisions, and providing such non-GAAP financial measures to investors allows for a further level of transparency as to how management reviews and evaluates our business results and trends. These non-GAAP measures are among the primary factors management uses in planning for and forecasting future periods. Compensation of our executives is based in part on the performance of our business based on certain of these non-GAAP measures.
Purpose
